1. What kinds of youth programs and activities do you think are the most important for supporting youth of different age groups (12 and under; 13-18; 19-24)?
2. What more would you like to see the District do to encourage parental accountability?

1. Provide supportive services for those who need them prior to enrolling them in job-readiness and occupational skills training?
2. Focus job training resources on those who are job-ready or currently in low-wage jobs?

### Discussion Question 3 – Libraries

1. Of the Library Task Force's six priority services, which are the most important for our new library system to provide? What's missing that you think should be a priority?
2. As a center of community life, what new purposes would you like to see our library system feature (e.g., theater space, art gallery, retail space, museum, public gardens, etc.)?

1. Given that the District will concentrate mixed-income housing around public transportation all over the city, what can be done to make this workable for you and your neighborhood?
2. Given that special needs populations are going to be housed throughout the District, what can the city do to make this workable for you and your neighborhood?
